Hot Pepper Chilaca Plus

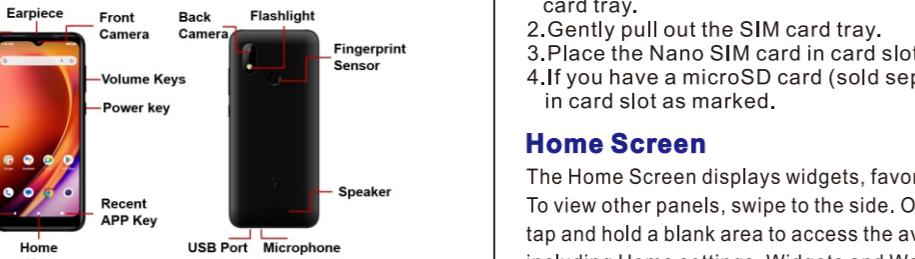

Quick Start Guide

Hello from Hot Pepper

Thank you for purchasing your Chilaca Plus mobile phone. Please follow these simple but important instructions for optimal use of your new phone.

Device Layout

Charging the Battery

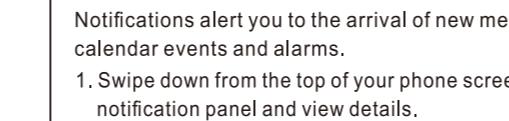

Connect the Type-C USB end of the data cable to the charging port on your device.

1. The charging port is located on the bottom of your phone.
2. Connect the USB end of the cable to the charger.
3. Connect the charger to an electrical outlet to fully charge your phone.

Power Your Phone On & Off

1. The Power key is located below the volume keys on the right side of the phone.
2. Press and hold the Power key for a few seconds to turn on your phone.
3. To turn off your phone, press and hold the Power key until the menu appears and then select Power Off. (other options also include Restart, Screenshot and Making an Emergency Call)

SIM Card & MicroSD Card

1. Insert the SIM ejection pin into the hole to open the SIM card tray.
2. Gently pull out the SIM card tray.
3. Place the Nano SIM card in card slot as marked.
4. If you have a microSD card (sold separately), place it in card slot as marked.

Home Screen

The Home Screen displays widgets, favorite apps and more. To view other panels, swipe to the side. On the home screen, tap and hold a blank area to access the available options, including Home settings, Widgets and Wallpapers.

1. To move an app, tap and hold an item on the home screen and then drag it to a new location and release.
2. To create a folder, tap and hold an app, then drag it over another app. Drop the app when a folder frame appears around the apps - a new folder containing the selected apps will be created.
3. To remove an item, tap and hold the item. Then drag it to Remove at the top of the screen and release.
4. To add more apps to a folder, tap and hold another app and then drag it to the folder and release.

Notifications and Quick Settings Panel

Notifications alert you to the arrival of new messages, emails, calendar events and alarms.

1. Swipe down from the top of your phone screen to open the notification panel and view details.
2. When you're finished with a notification, swipe left or right to swipe it away. To dismiss all notifications, touch **CLEAR ALL**.
3. Use Quick Settings to easily get to frequently used settings, like turning on airplane mode and more.
4. To change a setting, just touch the icon. Main settings are showing as below:

- Wi-Fi: Turn Wi-Fi on or off. To open Wi-Fi settings, tap and hold the Wi-Fi icon
- Bluetooth: Turn Bluetooth on or off. To open Bluetooth settings, tap and hold the Bluetooth icon.
- Do Not Disturb: Turn Do Not Disturb mode on or off. Tap and hold the Do Not Disturb icon to access feature settings.
- Flashlight: Turn the flashlight on or off.
- Auto-rotate: Lock your device's orientation in portrait or landscape mode.
- Location: Turn location service on or off.
- Mobile Data: See mobile data usage and turn it on or off.
- Airplane Mode: Turn airplane mode on or off.
- Display Brightness: Slide left or right to lower or increase the brightness of your screen.

On the Home Screen, tap  at the bottom or swipe up and then tap  to enter the Photos screen.

1. To delete an image or video, select an image or video, tap  to move to trash and it will be deleted.
2. To delete multiple images and videos, tap and hold any image or video to delete, then tap the images or videos you would like to remove. A checkmark icon will appear, then tap  to move them to the trash or tap on the top right of the Photos screen and tap Delete.

3. To edit an image, select an image, tap  , select the options and tap Save copy.

On the Home Screen, tap  at the bottom or swipe up and then tap  to enter the Phone screen.

1. Enter a phone number on the keypad to make a call. If the keypad does not appear on the screen, tap  to open it.
2. Tap  and then choose someone to call from your contacts.

3. To view recent calls, tap  Call History.

4. During a call, you can tap  at the bottom of the screen to hang up.

Receiving a call

The Incoming Call screen pops up when a call comes in, along with the caller ID and other information you've entered in the Contacts.

There are various options available when a call comes in:

1. To answer a call, slide  up.
2. To reject a call, slide  down.
3. To reject the call and send an SMS message to the caller, slide  up from the bottom left of the screen and tap one of the preset text messages to send it to the caller.

Contacts

On the Home screen, swipe up and then tap  to enter the Contacts screen. This app easily saves all of your important contact information.
