

ACTIVATE A DEVICE

This guide shows you how to activate a device or SIM card using the *My U.S. Cellular Business Account* portal.

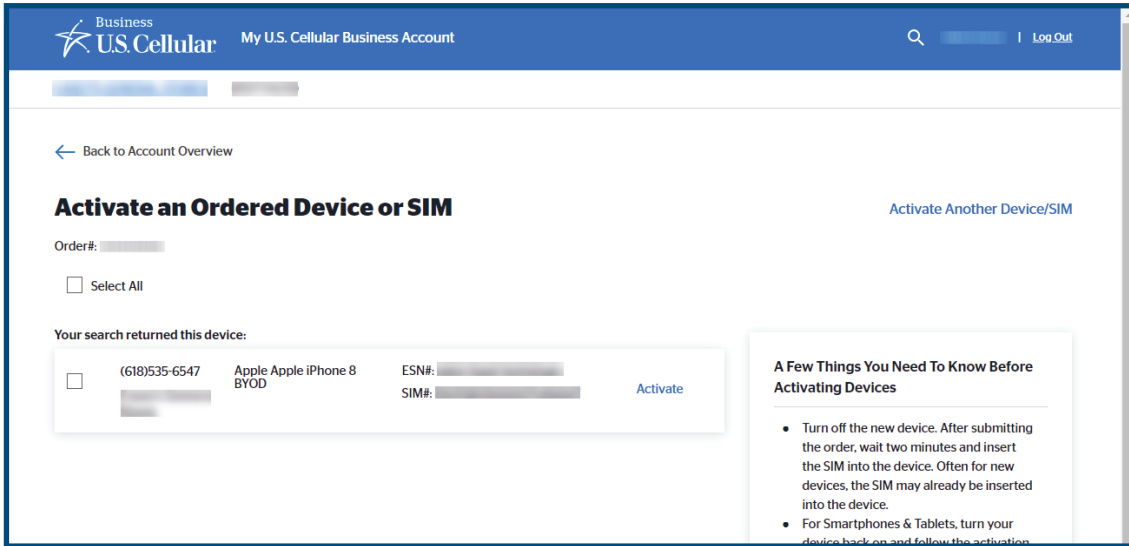

- 1 Log into *My U.S. Cellular Business Account* with the login credentials provided to you by your Business Sales Support Specialist.
- 2 On the portal landing page, click "**Activate an Ordered Device/SIM**."

- 3 Enter the **Phone Number** of the device you'd like to activate and click "**Search**."

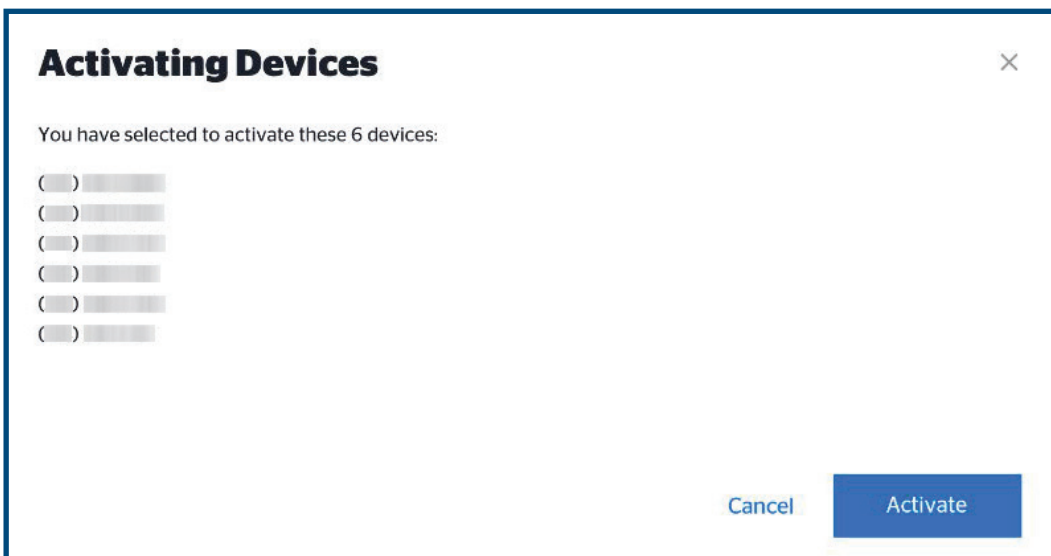

- 4 The phone number you searched for will display at the top of the page. If this phone number is part of an order with *additional* devices, those devices will display along with their individual activation status.

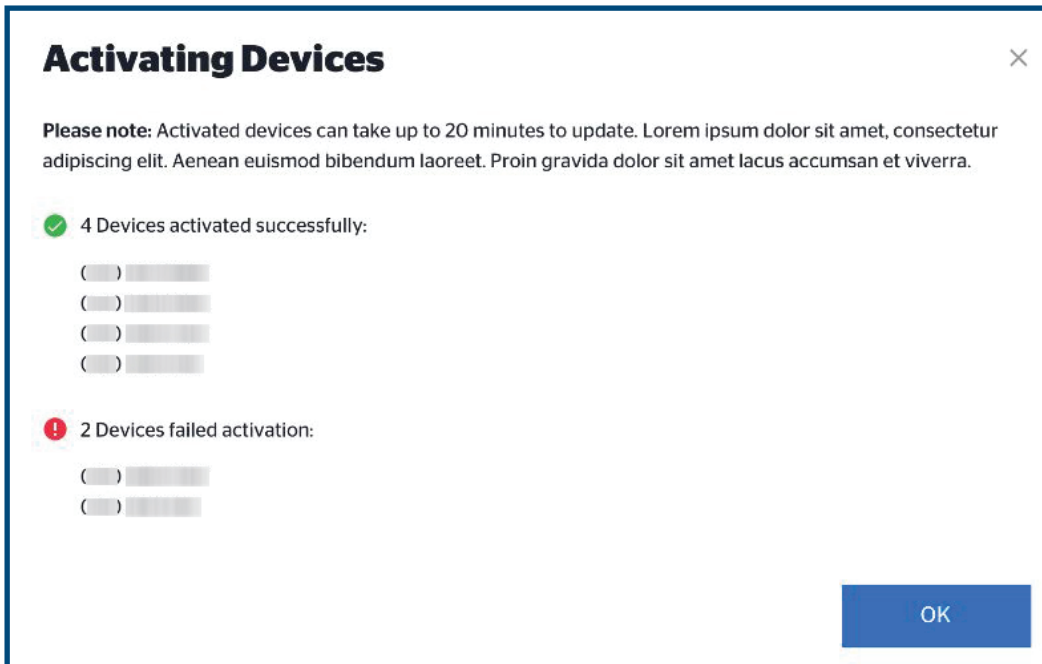

- If you want to activate all devices on this order, check **"Select All"** and click **"Activate Selected!"**
- You may activate only the device you entered, or a subset of devices, by checking the appropriate lines and clicking on **"Activate Selected!"**

Instructions to complete the activation process are displayed on the right side of the screen.

- 5 A pop-up window displays a list of phone numbers you are activating. To confirm, click **"Activate."**

- 6 The activation process for the phone numbers you have selected has been initiated. A dialog box will show you initial results and confirming which phone numbers have been successfully activated.

- 7 The dialog box will also display any lines that could not be activated at this time along with instructions to contact your local Sales support team.

An email confirmation will be sent to the default address on file with details of the order and instructions on how to complete the activation process. Confirmation of this order can also be seen under the "Orders" tab on the Account Dashboard.
