

MiFi® M100 Mobile Hotspot by Novatel Wireless

Connecting to the MiFi M100

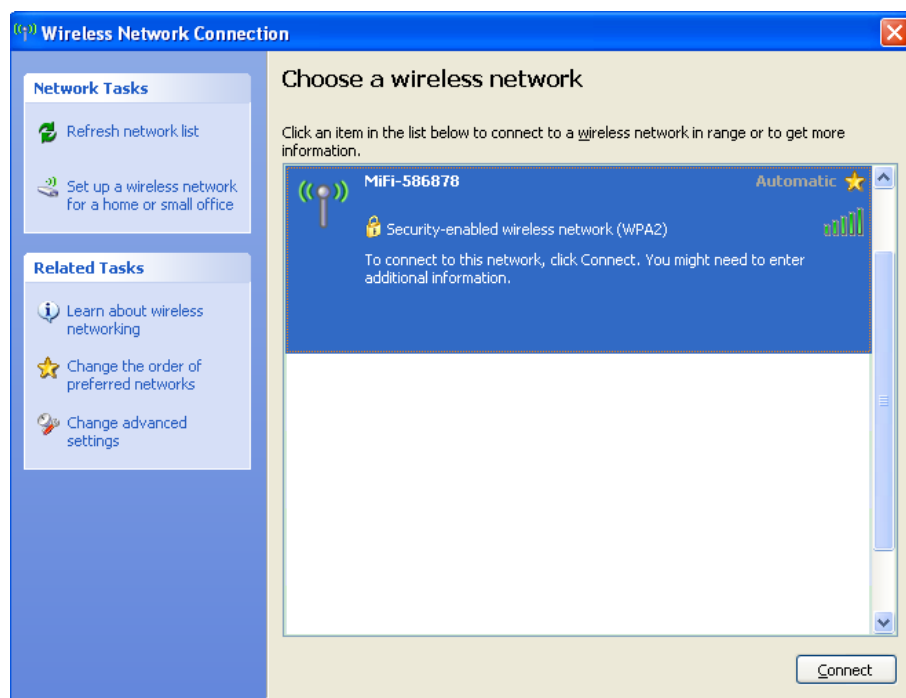

Connect up to 15 Wi-Fi enabled devices at one time including computers, tablets, smartphones and more.

1. Power on the MiFi M100 by holding the power button until the LEDs illuminate. This may take several seconds.
2. Use your Wi-Fi application or controls on the device you want to connect to and find the Wi-Fi network (SSID) named **MiFi-xxxxxx**.

NOTE: The default SSID and Password are located on a sticker inside the battery cover.

3. Select the SSID of your device, and then click **Connect**.
