How to Switch Between 4G and 3G

You can set the Samsung Galaxy Metrix™ 4G to use only the 3G network, or let the phone choose between 3G and 4G, depending on which network is available.

1. Touch **Applications > Settings > Wireless & networks.**

2. Choose **Mobile networks.**

3. Touch **System selection.**

4. To enable switching between the 3G and 4G network, choose **LTE/CDMA.**
