

U.S. Cellular® Home Phone **E911/GPS**

E911/GPS

911 services are supported just as they are on any wireless device. Because the device is intended mainly for indoor use, please be prepared to provide your location to the emergency response center responsible for sending first responders (e.g., police, medical assistance, or fire) to your location.

The GPS chipset embedded in the Home Phone device will work best if the device is located near a window or other exterior opening.
