1. To use tethering, from the home screen and with Optimus U connected to a computer with a USB cable, press the Menu Key.

2. Touch Settings.

4. Touch Tethering & portable hotspot.

5. Touch USB tethering.

6. Review the introduction for tethering and touch Agree.

7. Optimus U is now tethered to the computer to provide it with a data connection. To end the tether, just touch USB tethering again.

8. To have Optimus U serve as a portable Wi-Fi® hotspot, it does NOT need to be connected to a PC with a USB cable, and it should not be connected to a Wi-Fi network. From the Tethering & portable hotspot menu, touch Portable Wi-Fi hotspot.
9. Review the introduction for portable Wi-Fi hotspot and touch Agree.

10. To protect your hotspot, you should create a password for it. Touch **Portable Wi-Fi hotspot** settings.

11. Touch **Configure Wi-Fi hotspot**.

12. Your password defaults to your phone number. You may change the password by touching the Password field and entering a new password. Touch Show password to review your password. Any device attempting to connect to the network will need to enter this password. Touch **Save**.
