Huawei Ascend® Y – Wi-Fi Setup and Usage

Wi-Fi gives you wireless access to broadband Internet. To use Wi-Fi on your mobile phone, you must have an access to wireless access points (hotspots). Obstacles that block the Wi-Fi signal will reduce its strength.

**Turning Wi-Fi On and Connecting to a Wireless Network**

1. On the Home screen, touch the **Applications** icon.
2. Touch **Settings**.
3. Touch **Wireless & networks**.
4. Mark/Unmark the **Wi-Fi** checkbox to turn on/off Wi-Fi.
5. Touch **Wi-Fi settings**. You will see a list of detected Wi-Fi networks in the **Wi-Fi networks** section.
6. Touch a Wi-Fi network to connect.
7. Enter the password if prompted, and then touch **Connect**.
