Using S Note™ – Formula Match

Formula match in S Note™ acts as a scientific calculator, providing solutions and information from the Wolfram Mathematica database on simple or complex mathematical equations.

1. While in an S Note, touch and hold Productivity tools and select Formula match.

2. Using your finger or the S Pen™, write your formula in the bottom pane of the S Note. The formula appears in typed text in the top pane.

3. Touch Search to find the solution in the database, or touch Insert to replace the written formula with the typed formula in your note. Choose to complete the search using Internet or Web Everywhere.

4. The results of your search will be presented.
