Setting Wallpapers

Customize the Samsung Repp to make it your own. A new wallpaper can be selected from the pictures or Wallpapers.

Set Wallpaper from the Wallpapers

1. From the home screen, touch Menu > Wallpaper.
2. Touch Wallpapers or Live wallpapers.
3. Scroll left and right until the desired wallpaper is found. Touch the desired wallpaper. Confirm by touching Set wallpaper.

Set Wallpaper from Gallery

1. From the home screen, touch Menu > Wallpaper.
2. Touch Gallery.
3. Select the desired picture by touching it.
4. The area of the picture can be selected by moving and resizing the box.
5. When the desired area of the picture has been selected touch Save.
Customizing Home Screens

Customizing Home Screens with Selected Contacts, Applications and Widgets

The Repp has up to five customizable home screens.

1. From the Home screen, touch **Menu > Add**.
   **Note:** there must be space available on the current Home screen before **Add** can be selected.

2. Select from Shortcuts, Widgets, or Folders to add to the current screen. For this example select **Shortcuts**.

3. Select from the list of shortcuts. For this example select **Applications**.

4. Select from the list of applications. For this example select **Calculator**.

5. The selected application is now on the Home screen and can be launched by touching the icon.

Removing an icon from a home screen

1. Any icon can be removed from a Home screen by touching and holding it.

2. While holding it drag the icon to the trash can and release it.
